Crit based elemental hit deadeye build guide (poe ritual 3.13).

requirements: 70 maximum Life 30% Fire Resistance 30% Lightning Resistance 30% increased Elemental Damage with Attack Skills (Gloves) Rare Gloves - extra attack speed may be a good addition in end-game versions of this build Min. Elemental Hit catapulted itself to superlative status on its release and has since cemented itself as one of the strongest skills in Path of Exile. An Elemental Hit may perhaps be performed with any weapon, or with no weapon equipped. It is based on the reworked Elemental Hit, which deals only Fire Damage thanks to Avatar of Fire passive, Cold to Fire Support Gem and The Call of the Brotherhood unique ring. You can also use the regular Haste Aura if you feel comfortable reserving that much Mana. If you can afford one early on, you can also use the Vaal Haste Gem instead with the Aura turned on Bandits: We recommend helping Alira for increased Crit. We would like to also invite you to check the full list of our Path of Exile's Builds that can be found here: Odealo's Crafty Guides - Full List 1. This Build use Elemental Hit Gems for the primary skills, Elemental Hit is definitely an attack skill, executing a standard attack with added damage of a random element. We can buy POE currency to build quickly. Gameplay This is a typical ranged/bow build. Keep this Gem at level 3 Increased Duration Support - will extend the duration of Immortal Call and Vaal Haste effects (UTILITY) Various Gems (single sockets) Ice Golem - Ice Golem grants increased chance to Critically Hit and increased Accuracy Rating Blood Rage - increases Attack Speed, Life Leech, and generates Frenzy Charges Herald of Ash - increases your Fire Damage and causes AoE explosions when you kill enemies Blink Arrow - Movement Skill which can be used with Bows Odealo supports player-to-player trading for Path of Exile Currency, Orbs, and Unique Items. The gameplay is exactly the same as in the guide below, but we had slightly higher DPS thanks to the higher budget Odealo is a secure trading platform for MMO gamers. We have decided to not use Xoph's Amulet to minimize the total cost of items. I have personally turned it off only against Bosses Cast when Damage Taken Support - will auto-cast supported spells after a certain amount of damage is taken by the player. This build is developed to level your Elemental Hit build, then later respect to a boss killing version. 0:06 Tier 16 Lair of the Hydra 0:33 Tier 16 Maze of the Minotaur 1:16 Tier 16 Pit of the Chimera 1:43 Tire 16 Forge of the Phoenix This video was recorded on a level 88 Deadeye using Xoph's Blood Amulet and +3 Bow. By stacking Critical Strike we can melt bosses within seconds - anything that cannot be killed instantly can then be easily kited and safely dealt with. Final Skill tree, Ascendancy Points, and Pantheon Final Skill Tree: 114 Points Final Skill Tree 114 Points Path of Building(PoB) link Ascendancy points: Preferably in that order: Far Shot Ricochet Gathering Winds Fast and Deadly Pantheon: Major God: Soul of Lunaris 1% additional Physical Damage Reduction for each nearby Enemy, up to 8%; 1% increased Movement Speed for each nearby Enemy, up to 8% Minor God: Soul of Gruthkul 1% additional Physical Damage Reduction for each Hit you've taken Recently up to a maximum of 5% 5. requirements: 60 maximum Life 200 Accuracy Rating 30% Fire Resistance 30% Cold Resistance Optional affixes: Elemental Damage with Attacks Attributes (Ring) The Taming - extremely powerful Ring which grants the highest possible DPS combined with Pyre. Build's PROS & CONS PROS budget-friendly great as League starter with no expensive items required decent defenses scales well end-game with proper gear and character level very fast clear speed CONS mediocre single-target DPS requires to take a far route to Avatar of Fire Passive or expensive Xoph's Blood amulet vulnerable to elemental reflect map mods 3. Here you can buy, sell, and trade POE Currency for real cash. At first, you should stick to using all elements, and go for the Elemental Conversion (Cold to Fire, Avatar of Fire, Call of the Brotherhood) when you are around level 70 and can get Avatar of Fire without skipping too many important nodes on your way up there. Suggested leveling Gem setups: Burning Arrow setup Burning Arrow - one of the first available bow skills in POE Added Lightning Damage Support - adds Lightning Damage to the Burning Arrow skill Lesser Multiple Projectiles Support - this will make your BA quite viable for clearing bigger packs as well Elemental Hit setup Elemental Hit - primary attack skill used in this build. Final Gems links (DPS) Elemental Hit (Bosses/single-target setup in Bow) Elemental Hit - your primary source of DPS Elemental Damage with Attacks Support Elemental Focus Support - greatly increases Elemental Damage but makes supported skills unable to inflict Elemental Ailments Fire Penetration Support - makes Elemental Hit penetrate a big portion of monsters' Fire Resistance Slower Projectiles Support - should replace Chain Support again tougher Bosses Empower Support - increases the level of supported Active Gems. Pros Massive single target damage with end-game gearDesigned to destroy end-game bossesTop-tier clear speedBow Build has a unique and satisfying style of playSafe DPS - very mobile, great kiting, and does not have to be in melee at all timesSatisfying pops when enemies die as Pyre turns them into gory chunks (also eliminates detonate dead)Only required items to get rolling are Combat Focus (Dexterity and Strength) and Combat Focus (Strength and Intelligence) Jewels Cons End-game gear is extremely expensiveSquishy if you get hit by mechanics or bosses - relies on player skill, mobility, and high movement speed to dodge mechanics Passive Skill Tree Gear and Gem Links Weapon: Rare Bow with increased levels of socketed gems and bow gems, attack speed, elemental damage, critical strike chance and multiplier, fire damage, and chance to deal double damageElemental Hit with Empower, Awakened Fire Penetration and Elemental Damage With Attacks, Combustion, and Barrage support gemsHead: Starkonja's Head (Unique) for increased dexterity, attack speed, critical strike chance, evasion, and lifeElemental Hit with Elemental Damage with Attacks, Fire Penetration, and Combustion support gemChest: Farnu's Fur (Unique) for increased armor, evasion, no reserved mana and +2 seconds stealth with Aspect of the Cat, maximum frenzy and power charges and phasing during cat stealth.Elemental Hit with Empower, Awakened Fire Penetration and Elemental Damage With Attacks, Combustion, and Barrage support gemsGloves: Rare Gloves with bonuses to life, resistances, accuracy, attack speed, and fire damage to attacksStylian Vise with bonuses to life, resistances, accuracy, elemental damage, fire damage to attacks, and strengthBoots: Rare Boots with 25% movement speed, resistances, life, intelligence, chance to dodge attacks, chance to gain endurance charge on kill, and immunity to being frozen Accessories: Amulet: Xoph's Blood (Unique) for increased strength, life, fire resistance, fire resistance penetration of your attacks.Rings:Pyre (Unique) for cold and fire resistance, increased burning damage, cold damage converted to fire, light radius, and ignited enemies are killed on hitThe Taming (Unique) for elemental resistances and damage, increased chance to ignite and damage per ignited enemy Gems with No Specific Gear Aura: Herald of Ash, Summon Skitterbots, Flesh and Stone, and Enlighten support gem Mobility: Blink Arrow with Faster Attacks support gem or Dash with Second Wind support gem Utility: Summon Stone Golem and any of the following: Sniper's Mask (preferably against bosses)Decoy TotemSummon Ice GolemBlood Rage CWDT Setup: Cast When Damage Taken with Steelskin and Vaal Grace and Increased Duration support gem Jewels: Combat Focus - one Strength and Dexterity and one Strength and IntelligenceCluster Jewels with bonuses to increased elemental damage, damage with bows, and damage over time with bowsRecommended Notables: (Fuel the Fight, Martial Prowess, Sadist, Feed the Fury, Prismatic Heart, Doryani's Lesson, Arcing Shot for clearing, Calamitous)Standard Jewels with bonuses to life, critical strike multiplier with elemental skills, attack speed with bows, attack speed, and fire damage Flasks: The Wise Oak (Unique) for elemental resistances and bonus elemental damage depending on which element you have the highest resistance ofAtzir's Promise (Unique) for chaos damage and resistanceDying Sun (Unique) for extra projectilesBottled Faith (Unique) for Consecrated Ground, granting you bonus damageCinderswallow Urn (Unique) for bonus damage to ignited enemies during flask effect If you want to perform better in the path of exile, you can buy Path of Exile Currency at Emapc, which will make your game road more smooth. Boasting incredible single-target damage, fast clear speeds, high mobility, and the classic feel of playing a bow-build, there are few outright disadvantages to playing this build. Powerful Precision Bandits: Kill All Pantheon. Major: Arakaali (Unlock Arachnoxia) Minor: Doesn't really matter Very powerful Starter/Budget build as of Patch 3.3. Utilize nearly 100% Fire Damage conversion of Elemental Hit Updated for Patch 3.6 The Best Crafty Guides by Odealo Estimated budget: low Guide notes March 29, 2019 -Updated for Patch 3.6 May 4, 2019 -Updated Skill Gem section and Passives -Added Gameplay video Elemental Hit has become a very popular skill since the buffs it received in Patch 3.3. Its' DPS comes from the skill itself and is less dependant on gear which makes it a great pick for a League Starter build. Don't forget to: Take the Avatar of Fire Passive Equip The Pyre Ring Switch Poacher's Mark Curse for Projectile Weakness and take the Mana Leech node right from the Shadow's starting point Take two Jewel Sockets and use both of the Combat Focus Jewels to make Elemental Hit pick only the Fire Element Recommended leveling items: Goldrim - one of the best leveling helms in Path of Exile + (30-50) to Evasion Rating 10% increased Rarity of Items found + (30-40)% to all Elemental Resistances Reflects 4 Physical Damage to Melee Attackers Level Requirement reduced by 100 (Hidden) Locthlonial Carass - one of the best leveling gloves in Path of Exile, and they are available as early as level 1 (10-15)% increased Attack Speed + (20-30) to maximum Life (15-10)% reduced maximum Mana 10% chance to gain a Power, Frenzy or Endurance Charge on Kill Conduit Karui Ward - grants amazing DPS boost to any bow builds during leveling + (20-30) to Dexterity + (20-30) to Strength + 100 to Accuracy Rating 30% increased Projectile Speed 10% increased Movement Speed 30% increased Projectile Damage Stormcloud - extremely powerful Bow for Elemental Hit builds, which can also be used in the end-game (it is much cheaper than The Tempest and the difference in DPS is rather small) No Physical Damage Adds 1 to 85 Lightning Damage (36-50)% increased Attack Speed 4. Sadly, Patch 3.4 nerfed the Damage of converted Elements by 50%, which lowers the total DPS output of this build by approximately 35%. It creates a Mirage Archer on your back who uses the supported Attacks even when you are running and progressing through Maps Fire Penetration Support [CURSE] Orb of Storms setup Orb of Storms - will apply your Curse and generate Power Charges, Gathering Winds 2. Chance and Accuracy Rating Poacher's Mark - quite a decent Curse for this build while leveling. This is our Elemental Hit Ascendant transformed into something even more deadly. requirements: 80 maximum Life 2000 Evasion Rating Optional affixes: Elemental Resistances (Amulet) Rare Amulet Min. Use this Gem on a low level to minimize the Mana cost Curse on Hit Support - makes supported spells apply the supported Curse Projectile Weakness - the recommended Curse for this build Power Charge on Critical Support - makes Orb of Storms generate Power Charges [UTILITY] Immortal Call and Vaal Haste setup Vaal Haste - increases your Attack and Movement Speed for a brief duration. However, it is very expensive and should only be considered by wealthier players + (8-10)% to all Elemental Resistances 20% increased Damage with Hits and Ailments per Freeze, Shock and Ignite on Enemy 30% increased Elemental Damage with Attack Skills + (20-30)% to all Elemental Resistances 30% increased Elemental Damage 10% chance to Freeze, Shock and Ignite (Boots) Rare Boots - get a pair with the highest maximum Life and Movement Speed bonuses you can afford Min. You can use Elemental Hit right after you reach level 12. At the same time, it is very cheap and easily obtainable even early in the League 50% reduced Damage when on Low Life + (50-70) to Dexterity 10% increased Attack Speed 25% increased Global Critical Strike Chance (100-130)% increased Evasion Rating + (80-100) to maximum Life 150% increased Global Evasion Rating when on Low Life Helmet enchantments: 15% increased Elemental Hit Attack Speed (Weapon) Silverbough - grants two additional levels to Socketed Gems and Elemental Hit making it a very solid Bow for this build. requirements: 60 maximum Life 20% increased Movement Speed 24% Fire Resistance 40% Lightning Resistance 24% Cold Resistance Boot enchantment: Adds 45 to 68 Fire Damage if you've Killed Recently 16% increased Attack and Cast Speed if you've Killed Recently (Belt) Rare Belt Min. 2. Do not upgrade it above level 1 Immortal Call - grants brief Physical Damage immunity, Ascendancy: 1. Gear Setup This Elemental Hit Fire Conversion Deadeye is a budget-friendly build and below you will find all the recommended gear for it. On the other hand, this build provides very good defenses with over 200% increased maximum Life from the Passives on the Skill Tree, over 20,000 Evasion and 40%/30% chance to Dodge Attacks and Spells. Pictures used in this article are the intellectual property of Grinding Gear Games. Also, the Bow listed (Silverbough) is the most cost-effective choice for this build. The recommended items from our list will: Help you cap your resistances Give you enough DPS and Life to start mapping successfully Stat priorities on items: Life Elemental Resistances Fire Damage/Elemental Damage Critical Strike Chance & Critical Strike Multiplier Attack Speed Accuracy Rating (at least 90% is recommended) (Helmet) Starkonja's Head - one of the best helmets for this build. 5. It not only reduces the cursed monsters' chance to evade attacks but also grants amazing Life and Mana recovery on Hit Haste - increases your Attack and Movement Speed. You can socket it right after you reach level 12 Elemental Damage with Attacks Support - greatly increases the DPS of Elemental Hit Greater Multiple Projectiles Support Faster Attacks Support Utility Gems Ice Golem - the recommended Golem for this build which increases your Crit. If you have any other build requests please leave that in the comments below. Should only be picked up by wealthy players +50% to Fire Resistance 20% less Fire Damage taken (-10-10)% increased Charges used (15-25)% increased Area of Effect during Flask Effect Skills fire 2 additional Projectiles during Flask Effect Suggested Flasks: Bubbling Divine Life Flask of Staunching (immunity to Bleeding) Catalysed Eternal Mana Flask of Reflexes (increased Evasion Rating) Ample Diamond Flask of Heat (Freeze immunity) Buying POE Currency with real money is a hassle-free way to get all the items you need for your character. Also, increases Fire Damage Greater Multiple Projectiles - increases the number of Elemental Hit's projectiles which increases your clear speed Mirage Archer Support - one of the best Support Gems for leveling and farming. On top of that, you can convert nearly 100% of other Elemental Damage types it deals with Fire, thanks to Avatar of Fire passive (or Xoph's Blood amulet for wealthier players). Converting Damage nearly triples Elemental Hit's DPS when it picks the Fire element, and Combat Focus jewels can prevent the skill from choosing both Cold and Lightning Damage types. Multiplier and Elemental Resistances Leveling Skill Trees: 33 Points Skill Tree Priorities: 1) Finesse 2) Herbalism 3) Primeval Force 4) Fury Bolts 5) Bravery 64 Points Skill Tree Priorities: 1) Lethality 2) Acrobatics 3) Blood Drinker 4) Bloodless 94 Points Skill Tree Assuming you decide to switch to Fire Damage Conversion at around level 70, you should have 90+ Passive Points at that time. Leveling tips Leveling as a Ranger, similar to other ranged classes, is rather easy. Penetration +35% to all Elemental Resistances During Flask Effect, 10% reduced Damage taken of each Element for which your Uncapped Elemental Resistance is lowest During Flask Effect, Damage Penetrates (10-15)% Resistance of each Element for which your Uncapped Elemental Resistance is highest (Flask) Dying Sun - increases the number of your projectiles which greatly increases your clear speed. The skill provides insane DPS, requires no expensive gear and allows farming high T12+ maps on less than 1 Exalted Orb budget and 5-links. Far Shot 4. It also received significant buff in Patch 3.5 increasing the effect of Onslaught by 60-100% 3% reduced Movement Speed (Hidden) (160-200)% increased Armour and Evasion + (60-90) to maximum Life (0.4-0.6)% of Physical Attack Damage Leeches as Life 6% chance to Dodge Attack Hits You lose all Endurance Charges when Hit You gain an Endurance Charge on Kill You gain Onslaught for 5 seconds per Endurance Charge when Hit (60-100)% increased Onslaught Effect (Body Armour) Rare Body Armour Min. requirements: 60 maximum Life 35% Fire resistance 35% Lightning resistance 20% Cold resistance Optional affixes: increased Attack Speed Added Fire Damage to Attacks (Jewel) Rare Jewels Recommended affixes: maximum Life Fire/Projectile Damage increased Attack Speed with Bows Optional affixes: increased Global Critical Strike Multiplier (Jewel) Combat Focus - Crimson Jewel that blocks the Cold element Elemental Hit deals (10-15)% increased Damage With 40 total Strength and Intelligence in Radius, Elemental Hit cannot choose Cold (Jewel) Combat Focus - Viridian jewel that blocks the Lightning element Elemental Hit deals (10-15)% increased Damage With 40 total Dexterity and Strength in Radius, Elemental Hit cannot choose Lightning (Flask) The Wise Oak - if you manage to have your uncapped Fire Resistance the highest, make sure to use The Wise Oak for extra Fire Res. requirements: 70 maximum Life 25% increased Critical Strike Multiplier 25% increased Critical Strike Chance 12% increased Attack Speed Optional affixes: increased Elemental Damage with Attacks Added Fire Damage to Attacks (Body Armour) Daresso's Defiance - a very good option for this build. Fast and Deadly 3. Buying from regular players on Odealo guarantees the best prices and highest security of every transaction. requirements: 60 maximum Life 30% increased Elemental Damage with Attacks 30% increased Global Critical Strike Multiplier 30 Intelligence Optional affixes: Elemental Resistances (Ring) Pyre - grants high Cold to Fire Damage Conversion, greatly increasing your DPS + (20-30)% to Cold Resistance + (25-35)% to Fire Resistance (60-80)% increased Burning Damage 40% of Cold Damage Converted to Fire Damage 10% increased Light Radius Ignited Enemies you hit are destroyed on Kill (Ring) Rare Ring Min. It's much cheaper than Rare +3 Bow and still does the job +1 to Level of Socketed Gems +1 to Level of Socketed Bow Gems (80-100)% increased Physical Damage Adds (15-25) to (50-60) Physical Damage 10% increased Attack Speed +30 to Accuracy Rating +10 Mana gained on Kill (Quiver) Rare Life/Crit Quiver - with high Attack Speed bonus Min. Use the Empower level 3 or higher (DPS) Elemental Hit (map clearing/farming setup in Body Armour) Elemental Hit Elemental Damage with Attacks Support Combustion Support - reduces Fire Resistance of enemies Ignited by supported skill.
